

Task Sheet for Intern Software Engineer Candidate

Time Duration: 1 hour and 30 minutes.

Objective: Develop a frontend for the Login and Sign-Up screens using React and Tailwind CSS based on the provided designs and assets.

Task Description:

1. **Frontend Development:**
 - Use **React** for building the frontend.
 - Style the components using **Tailwind CSS**.
2. **Design Reference:**
 - Carefully refer to the Figma file for the exact design specifications. ○
Ensure the final implementation matches the design closely.
3. **Assets:**
 - Use the assets provided in the link below for development.

Resources Provided:

1. **Figma File:**
<https://www.figma.com/design/vD4u49WemJKcwAlEkvkZux/Task-fro-Intern--SE?node-id=1-18&t=X6ofEOP7XfLVRhID-1>
2. **Assets Link:**
https://drive.google.com/drive/folders/1l_II8_47upYN7z3Yals0u4uMzxDWIR3?usp=sharing

Submission:

- Create a GitHub repository and upload your project.
- Share the repository link once completed with sahansaj@talentfort.lk mail address.

Evaluation Criteria:

- Adherence to the design specifications.
- Code quality and structure.
- Proper use of React and Tailwind CSS.
- Functionality and responsiveness of the screens.

API Endpoints:

Sign-Up:

POST Request URL: <https://intern-evaluate.talentfort.live/signup>

```
{  
  "first_name": "Jane",  
  "last_name": "Doe",  
  "email": "jane.doe@example.com",  
  "phone_number": "9876543210",  
  "password": "securepassword",  
  "confirm_password": "securepassword"  
}
```

Login:

POST Request URL: <https://intern-evaluate.talentfort.live/login>

```
{  
  "email": "jane.doe@example.com",  
  "password": "securepassword"  
}
```

Good luck!
